Sir:

This is in response to a Decision on Petition mailed June 22, 2009,

In the Decision, it is stated that Petitioner shall:

- Make the statements as required expressly set forth in the guidance in the Commentary at MPEP 711.03(c)(I) and
- Supplement his documentary showing by presenting a copy of the docket sheet or file jacket cover for the instant application.

In response, Applicant submits the following.

- I. Regarding the statements as required and expressly set forth in the guidance in the Commentary at MPEP 711.03(c)(I), in response to the requirement to include "a statement from the practitioner describing the system used for recording an Office Action received at the correspondence address of record with the USPTO, and should establish that the docketing system is sufficiently reliable", Applicant responds as follows:

Practitioner's system for recording an Office Action received at the correspondence address of record with the USPTO is as follows.

All mail received from the United States Postal Service, including mail received from the USPTO, is opened, date stamped by employees of the practitioner's law firm, and delivered to a docketing department of practitioner's law firm. Personnel in the docketing department review each communication, and if from the USPTO, the document is reviewed for its due date which is entered into a computerized docketing system. The information entered into the docketing system is then printed out and attached to the received document. The document with attached docketing sheet is then delivered to the attorney of record within one business day. The document with attached sheet is then reviewed by the attorney of record and his or her administrative assistant to ensure no error is made with respect to the docketed due date. Then the document with attached docketing sheet is associated with the corresponding physical file for further action. When further action has been taken, a notation is made in the docketing system so indicating. The undersigned practitioner has utilized the docketing system for many years and has determined that it is sufficiently and completely reliable. Specifically, in reviewing dozens of entries per month over the course of many years, the undersigned is unaware of a single instance in which a received Office Action with attached docketing sheet has not been entered in the system. That is, since each document received from the USPTO is separately date stamped, and entered into the computerized docketing system, and the entered data is then printed out onto a sheet attached to the USPTO document, it is highly unlikely, if not impossible, for any received document to be received at the correspondence address of record and somehow not be entered into the docketing system. Additionally, once entered into the docketing system, it would be extremely rare, if not impossible, for the entered record to subsequently not appear in a report in which such record should appear.

Regarding the requirement that the Petitioner state that the Office Action (i.e., Notice of Allowance) was not received at the correspondence address of record and that a search of the practitioner's records including any file jacket or the equivalent, and the application contents indicates that the Office Action was not received, Applicant hereby so states that the Office Action was not received at the correspondence address of record (if it had been, then it would have been present in the computerized docketing system) and a search of the file jacket for the above-captioned application, and the application contents, indicates that the Office Action was not received. Enclosed as Exhibit I is the master docket for practitioner's law firm for the due date of March 3, 2009 based on the date the Notice of Allowance was allegedly mailed (December 3, 2008), which corresponds to a copy of the record used by the practitioner where the non-received Office Action would have been entered had it been received.

Had the Notice of Allowance been received, it would have appeared at page 15 between Serial Nos. 11/710,098 and 11/715,524.

II. Regarding the requirement that Petitioner “supplement his documentary showing by presenting a copy of the docket sheet or file jacket cover for the instant application”, Applicant responds as follows:

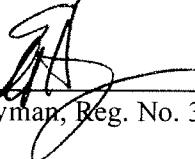

Although, as noted, a master docket does exist and is included herewith, and the cited commentary explicitly provides that only<sup>1</sup> in the event that no master docket exists must other evidence be provided, in order to comply with the Decision, the individual docket record for the application in question is also provided herewith as Exhibit II. As shown on the individual docket record, which generally corresponds to entries on the file jacket if practitioner used a manual docketing system, there is no record of the receipt of the Notice of Allowance allegedly mailed December 3, 2008. Had the Notice of Allowance been received, it would have appeared between the entries dated September 9, 2008 and March 31, 2009.

In view of the foregoing, Applicant submits that the required showing to withdraw the holding of abandonment in accordance with the commentary at MPEP 711.03(c)(I) has been complied with and granting of the Petition is requested.

Respectfully submitted,

BLAKELY, SOKOLOFF, TAYLOR, & ZAFMAN LLP

<sup>1</sup> The following is quoted from page 3 of the Decision to show that the individual docket record (or other evidence) is required only in the situation where no master docket exists. “A copy of the practitioner’s record(s) required to show non-receipt of the Office action should include the master docket for the firm. That is, if a three month period for reply was set in the nonreceived Office action, a copy of the master docket report showing all replies docketed for a date three months from the mail date of the nonreceived Office action must be submitted as documentary proof of nonreceipt of the Office action. If no such master docket exists, the practitioner should so state and provide other evidence such as, but not limited to, the following: the application file jacket; incoming mail log; calendar; reminder system; or the individual docket record for the application in question.” (Emphasis added.)
